The Art of Keeping Cool, Day 1

Outcomes for Today

W2. Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content.

a.) Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information, using strategies such as definition, classification, comparison/contrast, and cause/effect; include formatting (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aiding comprehension.

b.) Develop the topic with relevant facts, definitions, concrete details, quotations, or other information and examples.

f.) Provide a concluding statement or section that follows from and supports the information or explanation presented.

W4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1-3.)

W10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

What is a Nazi?

A Nazi was a person in a political party who ascribed to National Socialism as a political ideology, a political way of thinking, based on Adolph Hitler's book, *Mein Kampf*. The book outlines the political ideology of Hitler's Nazi fascism that there is a race of people who are rulers of others, which he said was Germany as he attempted to establish his new world order of an Aryan master race. First published in 1925, the book sketched out Hitler's ideology for a pure race of people to rule the world using the political ideology of National Socialism (Nazi). Hitler was against both Judaism and Communism, which he called the "twin evils" in the world. The book was written while Hitler was imprisoned.

Timeline Agree on the facts in today's reading and list the 3-5 most important on the timeline.

Timeline Materials:

- Large sheet of butcher paper to create a timeline, markers
- Tape, pins, magnets, or Velcro to fasten timeline to wall

Timeline Instructions:

- Discuss the story to fix the facts: who, what, where, when, and why
- Decide on the 3-5 most important events, and add these to begin the timeline

Students might mention:

- Big guns were close to being stationed at Sachem's Head, Rhode Island.
- Robert and Elliot are on West Main Road with the sea wind whipping them cold.
- It was early March 1942, just months after Pearl Harbor was attacked by Japanese and the U.S.A. entered World War II against the Axis powers.
- Robert's father was an American flying with the Royal Canadian Air Force out of England.
- Elliot decided he would draw exactly what he'd seen: those big guns.
- Elliot, Robert's cousin, is reserved and registers things too deeply.

What is a torpedo factory?

A torpedo factory is a place that puts together all the parts of a torpedo. The torpedo factory supplies torpedoes for planes and ships to stop enemy ships from delivering their weapons or cargoes. All the parts for a torpedo are assembled at the torpedo factory so that this weapon can be used to win a war. Torpedoes were used to sink battleships and aircraft carriers during World War II. It is dangerous work since there are explosive parts and fuel cells in torpedoes.

What does it mean to “bite off more than you can chew”?

Whenever a person takes on a task that is bigger than a person can handle, this is the idiom that is used to describe the resulting feeling of being overwhelmed. Grandpa Saunders was using this idiomatic expression to tell Robert that the farm job of growing corn and raising hogs was too big of a task for his mother to handle without her husband around to help. Robert was attempting to explain that adequate help was not available for hiring due to wartime conditions, but Robert’s grandfather cut him off before he could finish his sentence and answer his grandfather’s question.

What is an espionage mission?

When a person or a government is involved in obtaining information or intelligence without another person or government's knowledge, it is called espionage, which is also known as spying. The use of hacking computers has been one current method of obtaining information from others. In the past, spies were trained and sent to other countries to steal important military or commercial information and intelligence. The people involved in going to foreign countries to obtain information or intelligence on an espionage mission are called spies.

What does it mean to be homesick?

When a person moves to another place, many times they miss their friends, their community, the places they had great experiences, school, and other important places to their family. The feeling of missing all those things creates homesickness. Some people never move, so they never experience this feeling of being homesick. Other people move to a new country and miss their homeland, friends, and family. Homesickness occurs when the feeling of missing something, and a longing feeling to have it back again, happens at the same time.

The boys see Abel Hoffman go through the cut in the fence to enter the military fort. What do you think Abel is doing in the restricted area? Is Robert too quick to judge Abel's actions? Or do you think he has a reason to be concerned?

In 1-2 explanatory paragraphs, describe Robert's concern with Abel sneaking around the fort. Is he thinking this way out of fear? Do his concerns have to do with Abel's German roots? Be sure to use details and quotes from the text to support your explanations. Use transition words (first, next, then, last, also, however, etc.) to link your thoughts together. What is blacking out windows at twilight during wartime?

People would black out windows at sunset to make sure light wouldn't shine from windows along the coastline. This was thought to prevent convoys from being spotted by enemy submarine periscopes. Buildings along the coastline were targets for submarine torpedoes; therefore, by blocking all light from windows facing the ocean, citizens improved protection for ships crossing the ocean to deliver supplies to troops in Europe. Blackout curtains were made from heavy material draped across windows to prevent light from being seen outside the buildings.

What are fire tongs?

Fire tongs can be used to move small pieces of wood around inside a fireplace. Fire tongs are used to help the wood in fires burn more evenly. The fire tongs are usually black, and get covered in soot from burning wood in the fireplace. Usually the fire tongs are handled with heavy gloves that prevent hands from getting burned by the fire. Fire tongs are made from two pieces of metal fastened so as to be able to grasp, or pinch, a small log or piece of firewood in the fireplace and move it while it is burning or to add more wood to a fire needing more fuel.

What is Morse code?

Morse code is a communication method using short and long flashes of light, a series of clicks, or on-off tones to send a message. Flashes of light from special lanterns were used to send messages from one ship to another ship. **Short and long flashes of light** provided a relay of messages that were difficult to intercept without direct line of sight of both lanterns. Messages could be sent on land or even from land to ship or ship to land for covert operations in which commandoes could be used for a secret mission to disrupt the enemy's normal operations.

What is a rear gunner?

When large bombers were built, they were equipped with machine gunners in the tail of the aircraft, in the belly of the air craft, and on the top of the aircraft, as well as in the front of the aircraft. This was done to help shoot down enemy fighters who were attempting to shoot the bombers out of the sky. This would prevent them from dropping bomb loads on military targets. Since bombers actually flew quite slow, fighters could fly very fast and shoot at the bombers as they made passes over and over again. This prevented the bombers from killing the pilot and crew, or destroying the plane totally. The rear gunner protected the bomber from the enemy fighters approaching from the rear of the plane, its six o'clock position.

What is involved in caring for a vegetable garden?

Caring for a vegetable garden takes work every day. Weeding is only a part of caring for the vegetable garden. There are pests that like to eat the leaves or burrow in the ground to eat root crops. So, the person caring for the garden has to remove the weeds, look for snails and slugs, remove old leaves, and cultivate the soil so that water easily soaks into the soil. Vegetable gardens take a lot of water when the sun is hot during the summer. Staking up tall vegetables, creating strings for vines to climb, and checking for ripe vegetables are all a part of caring for a vegetable garden. Without special plant food, the vegetable garden would look sickly. It takes balanced fertilizer with micronutrients to help make a vegetable garden productive and so one can reap the benefits of the seeds that were planted weeks before.

What is a searchlight?

A searchlight is a huge, portable light with its own generator for power. Searchlights point up to the sky with mirrors inside the huge light fixture to focus the light up to an area of the sky. This produces a very bright beam of light that helps identify an airplane or blimp in the night sky. During past wars, the U.S. had searchlights pointing skyward at night to detect enemy aircraft or blimps. This was done in order for antiaircraft guns or missiles to pinpoint enemy aircrafts and bring them down. After the wars, searchlights were used to announce a sale or the opening of a movie or a new theme park. Today, you will see the searchlights used in Hollywood or Disneyland, and at Disney World in Florida on special occasions.

What are Indian arrowheads?

North American Indians used bows and arrows to shoot game for food. The arrows consisted of a wooden shaft; a sharpened and pointed stone inserted and tied to the head of the wooden shaft, called an arrowhead, and at the back end of the shaft of the arrow were feathers to help guide the arrow straight to its intended target. The feathers were attached to create a guide for the airflow to keep the arrow straight. Arrowheads were made of rocks that could be chipped and sharpened so as to shape the hard material into a pointed object that would penetrate an animal's skin, and would badly wound or kill the targeted animal.

Robert sees Abel Hoffman looking at the guns with binoculars. From what you have read about Abel so far, do you think he is spying? Or is he getting inspiration for his art? Create a 2-column chart: provide a heading on one side that says 'Spying' and a heading on the other side that says 'Art.' On the 'Spying' side, provide evidence and ideas from the text that support Abel spying on the guns for the Germans. On the other side, provide reasons from the text that he is looking at the guns for inspiration for his art. **Below the chart, write 1-2 explanatory paragraphs that explain your own thoughts about Abel. What is a henhouse?

Unless you have lived on a farm or ranch, you might not have any idea what a henhouse really is. A henhouse is usually made of wood with places for straw to be placed so that the hens can create a nest on which to lay their eggs. A henhouse is a place where the hens sleep at night, too. The chicken coop is usually completely enclosed to protect the hens from predators and house the chickens in a protected environment.

What is a wild bird egg collection?

Some people prize collecting wild bird eggs as a hobby. Elliot in our story enjoys hunting for and finding wild bird eggs in the area of Sachem's Head, Rhode Island. Looking for wild bird eggs takes patience and a great memory, or a detailed diary of when you found the egg, where you found it, a description of the egg, a drawing, and maybe a photo. Later, identifying the wild bird egg and seeing an adult wild bird who laid the egg would be the added joy of the wild bird collector. Bird eggs are one of many items that people enjoy keeping collections of. Other items people collect include baseball cards, stamps, and coins.

What is Expressionist Art?

Expressionist art is an art form originating in Germany in the early 20th century that focused more on expression of feelings or emotions rather than realistic forms. The explosion of colors representing a feeling would be one way to describe such a painting. Use of oils was a common medium in expressionist artwork. This art form became popular in the United States following World War II, and remained popular into the 1970s. The artist conveyed emotional meaning in the use of color and texture, and also attempted to stir up emotion within the viewers of the paintings. Some say that this form of art grew out of the Impressionist works of art, or in response to that art form. The art form waned after Hitler came to power in the late 1930s in Germany.

What does it mean to be blacklisted?

The term blacklisted is used to describe a person who is allowed to be hired by anyone—or a company—for any job. Unions keep a list of blacklisted companies and individuals. Potential employers are warned not to hire the blacklisted person/company to do any work; this forces the company or the person to look elsewhere for employment. This is a subtle form of changing the minds of people to do what is desired. Sometimes, even governments have used this tactic to create fear for the sole purpose of controlling certain people's lives. It is effective in creating fear for a time, until anger overcomes the fear, and then sometimes rebellions erupt into various forms of violence against those who have blacklisted too many for too long. Blacklisting is an unjust action that takes away rights of individuals. It is a leadership tactic that does not promote engagement or the common good.

What is the Gestapo?

The Gestapo was a special unit founded by Göring and entrusted by Hitler to carry out his desires in Nazi-controlled Germany. The agents of the Gestapo were the secret state police who carried out Hitler's orders against citizens of Germany and eventually all occupied countries. They committed horrible atrocities against humans of all nationalities. The Gestapo used inhumane tactics and methods to get information or confessions from victims. At its height, the plainclothes secret state police numbered 40,000 strong and the law had no power over their decisions; they were above the law and could do anything to anybody without any reprisal. The fear that the Gestapo created kept the population subdued and willing to do whatever they were told.

What is a clothesline?

Before people used dryers to dry their laundry, people had clotheslines and clothespins, which they used to hang wet clothes to dry. This was especially done during the spring and summer months because the breeze and sun would aid in the drying process. Clothesline was made of plastic-coated cotton rope just wide enough to clamp on a clothes pin. The clothespin held the clothes on the clothesline while the water evaporated from the material in the clothes. You can imagine seeing every bit of your mother's wash hanging on the clothesline for everyone passing by to see. Sometimes it was an item of conversation about what was hanging on somebody's clothesline.

Students might mention:

- Elliot tells Robert to not follow the crowd because he knows a shortcut.
- Elliot freezes when he sees the sheds with the paintings had been set on fire.
- Abel tries to save his paintings by entering the fire and perishes in the flames.
- Elliot goes home, gets sick, is confronted by and deflects his grandpa's anger.
- Robert notes that Sachem's Head seemed to move on with the routine of life and Abel Hoffman was just buried history without justice.

W2. Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content.

a.) Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information, using strategies such as definition, classification, comparison/contrast, and cause/effect; include formatting (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aiding comprehension.
b.) Develop the topic with relevant facts, definitions, concrete details, quotations, or other information and examples.

c.) Use appropriate transitions to create cohesion and clarify the relationships among ideas and concepts.

d.) Use precise language and domain-specific vocabulary to inform about or explain the topic.

e.) Establish and maintain a formal style.

f.) Provide a concluding statement or section that follows from and supports the information or explanation presented.

W4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1-3.)

W7. Conduct short research projects to answer a question, drawing on several sources and generating additional related, focused questions for further research and investigation.

W10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

What does it mean to “carry on in a coat closet”?

This is an idiomatic expression that refers to someone who does not get their way and proceeds to complain and gripe about what they didn't get. It infers that the person is used to getting what they want. This expression speaks about a person who has been spoiled with too much, and does not appreciate what they have.

What is a grouse?

Grouse are a species of plump chicken-like, ground-eating birds that are hunted for their meat. They can be found in regions from the arctic to the forests of the sub-arctic.

Grouse species are even found on the flat prairie and are known as prairie chickens.

Grouse can be cooked in many ways, just like chicken. Hunted for food, the grouse has been on the dinner tables of many families throughout the east coast and westward to New Mexico and Texas. Weighing up to 6.5 kilograms, the grouse is a colorful feathered bird that eats fruit, insects, and even pine needles. Grouse can also be found in many parts of Europe.

What is a bad temper?

A person with a bad temper does not have much patience with others, and is easily set off. A bad temper never allows justice to take its course. Quick-tempered people let their anger and emotions get the best of them when they are making decisions. The art of keeping cool is the opposite of having a bad temper. Mastering the art of keeping cool in the midst of a stressful situation requires self-control. A bad temper can ruin relationships and lead to bad decisions. A true leader, one who promotes civic engagement, needs to control a bad temper, or be a master in the art of keeping cool in the midst of stressful situations.

Elliot displays his emotions and feelings in art. Using details from the text, compare Elliot and Robert’s leadership styles.

In 3 explanatory paragraphs, explain the similarities and differences between the two characters. Dedicate one paragraph to introducing the two characters and explaining their relationship. Next, use one paragraph to explain

similarities between the two: focus on their roles as leaders in their communities. Then, write one paragraph that examines the differences between the two: how do they deal with their feelings? How does each character respond to conflict? What differences exist in each character's leadership style? Be sure to maintain a formal tone in your writing. What are some ways leaders can promote engagement?

There are several ways for leaders to promote engagement in their community. Leaders can promote democracy and the sharing of ideas within their communities; this allows for people to share their ideas, let their voices be heard, and work together to solve problems. Leaders can also be transparent with the people they work with.

Transparency allows for people to be informed of exactly what is happening in their communities. Finally, leaders can work towards the common good by listening to others, hearing their concerns, and working towards justice for all, especially those who society tends to ignore or discriminate against.

At the close of the novel, Elliot offers advice to Robert: control your anger and don't let things bother you. Do you think it is necessary for good leaders to be able to

stay focused and control their anger? Do you know of any leaders who promote engagement and promote the common good?

Think of someone who is a good leader. It could be a president, historical figure, author, inventor, teacher, or family member. Once you pick a leader to focus on, use reliable online or print resources to research their lives and their actions. What qualities do they have? What actions do they take to promote the common good? How do they work to improve their communities?
