The Hobbit, Introduction

Preview

The Hobbit by J.R.R. Tolkien is a fascinating story of a hobbit that just wanted to be left alone. However, he was visited by Gandalf, a wizard, and swept into a quest facing evil orcs, savage wolves, giant spiders, and unknown dangers.

This novel not only supports ELA but also has strong ties to the Social Science Standards and many social and global issues. Prior to reading the book with your class I recommend reading it yourself. Websites are listed in the lessons that will support your reading. Here are additional support materials you may want to gather prior to reading with your class. The final writing product asks students to analyze the historical significance of the novel.

Class Project

As a class define what a “Hero” is. Ask students to think of “Everyday Heroes” that they may encounter. Invite “Everyday Heroes” to visit your class to speak. Some examples are:

- Local Hospital Volunteers
- Military
- Fire/Police Men and Women
- Student Volunteers
- Someone who has overcome adversity

Final Writing Product

There are two choices for the final writing product for *The Hobbit*. One is a business letter and the other a literary critique. All support material can be found at the end of the lesson plan.

The Heroic Journey

Overview

Ordinary World	The journey begins in the Ordinary World where you are bored, feeling stuck, or finding your life is going nowhere, or at least not where you want it to go.
Call to Adventure	But then, unexpectedly, you receive a Call to Adventure. Often from a herald, sometimes an invitation, a plea for help is usually a disruption.
Reluctant, Refuse the Call	But our hero, bored and stuck is Reluctant to answer this call and even Refuses the Call. It's too different, too many obligations, not now...
Mentor	This will change and the call will be answered, training will be required and for this a Mentor will enter to provide the expertise and wisdom with some tool or symbolic object necessary for the journey.
Cross the Threshold	You can't stay in school and enjoy the wisdom of the mentor forever, somewhere the journey must begin and you must enter the special world where this heroic journey will take place, you Cross the Threshold and begin the journey.
Test, Allies, & Enemies	The journey is never alone, you need companions. Now the test comes, you find who will be with you and who will not. Who will be your friend, who will be enemies? This is the time of Test, Allies, & Enemies.
Approach the Innermost Cave	As you set off with companions, you now approach your deepest fear, longing, desire or dread. You must Approach the Innermost Cave; get even closer to what causes you the most anxiety & pain.
Ordeal	You find yourself in the horrible mess you feared most. The Ordeal has come and you must summon everything heroic in yourself to get through it. The moment has come...
Reward	You have survived and won, you celebrate victory and leave with your Reward, which you can celebrate.
The Road Back	The story isn't over yet; you have to either stay in this special world or go return to the ordinary world, which heroes always do. The real proving is on The Road Back.
Transformation	What has our hero learned? Has he really changed? In this journey, their old self really dies and is reborn as the new hero and this is where we really see it. A real Transformation when everything depends on it.
Return w/ the Gain of Experience	The heroic journey ends with what you learned out of this experience. Did you get the outcome? Return with what you take from the experience.
Outcome	In the simplest terms: What was it that you learned?

What is a hero?

A hero can be defined in many ways. In mythology and legend, a hero is a man, often of divine ancestry, who is endowed with great courage and strength, celebrated for his bold exploits, and favored by the gods. In regular life, a hero is a person noted for feats of courage or nobility of purpose, especially one who has risked or sacrificed his or her life: *soldiers and nurses were heroes in an unpopular war*. A person noted for special achievement in a particular field: *the heroes of medicine*. Heroes in movies or novels typically conquer some adversity and are able to rescue others and survive different trials.

In the novel *The Hobbit*, we will be studying the Heroic Journey and determining what traits make a hero.

Key Passage, p. 2-3

"The mother of our particular Hobbit- what is a hobbit? I suppose hobbits need some description nowadays, since they have become rare and shy of the big people, as they call us. They are (or were) a little people, about half our height and smaller than the bearded Dwarves. Hobbits have no beards. There is little or no magic about them, except the ordinary everyday sort, which helps them to disappear quietly and quickly when large stupid folk like you and me come blundering along, making a noise like elephants, which they can hear a mile off. They are inclined to be fat in the stomach; they dress in bright colors (chiefly green and yellow); wear no shoes, because their feet

grow natural leathery soles and thick warm brown hair like the stuff on their heads (which is curly); have long, clever brown fingers, good natured faces, and laugh deep fruity laughs (especially after dinner, which they have twice a day if they can get it)" (p. 2-3).

EXTEND

Write Have each student write a short product based on today's prompt to connect to the unit theme.

The author spends a lot of time describing the Hobbit physically, emotionally, and mentally. There are very distinct differences between the Took Clan and the Baggins Clan.

Using a computer, write at least 2 descriptive paragraphs about hobbitses. In the first paragraph, introduce your audience to the main character Bilbo Baggins by using descriptive language to present his physical appearance and personality traits. In a second paragraph, explain the differences between the Took clan and the Baggins Clan. Make sure each paragraph has plenty of sensory language and telling details. Provide an appropriate introduction and conclusion to each paragraph. When you are finished with your assignment, upload it to the online forum of your choice (Google Docs, Blog, etc.)

What are the Ordinary World and the Call to Adventure in the Heroic Journey?

In The Ordinary World: We meet the hero in circumstances which would not lead us to believe there is anything special about the hero—he or she appears to be ordinary, yet we are given signs that this person does have some special power, or gift, or ability.

The Call to Adventure: The journey continues at the next stage when our hero is called by events, circumstances, a message, or a messenger out of this ordinary world to take on a greater adventure in the world outside.

This call to adventure will most often take the hero to a special world, a world not situated in the facts of time and space, but a fantasy world. In this fantastic world, we can learn about the lessons our lives can teach us in new ways.

Often the agent that brings the call to adventure is a **herald**. In mythic stories, the **herald** might issue a challenge to the future hero or is a signal that a significant change is about to occur. In the case of Bilbo Baggins, the herald will also be a **mentor**.

What is a troll?

In Scandinavian mythology, trolls are a special class of monsters who show up in many forms, with notable traits. They are huge, extremely ugly, and strong; they like human flesh and are very dumb. They seek treasures of all kind – gold, jewelry, and children. They live in cold places and underground. Because they live underground, under bridges and in sewers, they usually smell very bad. They tend to have odd facial, feet, and hand features including bushy hair, tails and odd numbers of fingers and toes. They keep to the dark because light often turns them to stone. Many myths talk about prominent rocks as former trolls. Attacks of trolls include horrible stories of being eaten with only the skeleton left behind. Trolls are often used in mythology to represent the worst things that creatures can do.

What is a mentor?

At this point in the story, a **Mentor** enters. Sometimes the mentor is one person, sometimes several, sometimes even whole institutions or organizations. The mentor is

responsible for teaching, guiding, and training, as well as protecting and forming the young hero until the hero is ready for the test ahead.

What does it mean to “Cross the Threshold”?

To “cross the threshold” is to enter into the special world in which the heroic journey will take place. The journey begins once the hero has crossed the threshold.

What are Runes?

Runes are any of the characters in several alphabets used by ancient Germanic peoples from the 3rd to the 13th century. A similar character in another alphabet, sometimes believed to have magic powers. Runes can also be described as a poem or incantation of mysterious significance, especially a magic charm.

Among early peoples, writing was a serious thing, full of magical power. In its only reference to writing, the *Iliad* calls it "baneful signs." The Germanic peoples used a runic alphabet as their form of writing, using it to identify combs or helmets, make calendars, encode secret messages, and mark funeral monuments. Runes were also employed in casting spells, as to gain a kiss from a sweetheart or to make an enemy's gut burst. In casting a spell the writing of the runes was accompanied by a mumbled or chanted prayer or curse, also called a *rune*, to make the magic work.

In today's reading, the adventure party comes to the last house before assenting into the mountains. Bilbo meets Elrond, an elf who is able to translate the writing on their swords and tell them tales of their travels. He knows much about runes.

What does it mean to approach the innermost cave?

In mythology, stories of the heroic journey introduce us to the hero through a series of tests that clarify who are enemies and who are allies. The journey always includes companions, and always leads to a series of increasing conflicts and an ordeal in which these allies and enemies will be critical. On the way to the ordeal, the hero experiences conflict with those he or she meets along the way: people, forces, and places. This is the **Approach to the Inmost Cave** [Christopher Vogler, Joseph Campbell].

This is the area or zone of approach where the hero is going deeper into the special world and getting closer to the ordeal, the crisis that must inevitably erupt. This is the crisis that will test his or her courage, and call on everything he or she has to offer, everything he or she has learned. This approach can be fast or slow, mountainous or a desert journey, a physical struggle or even a romance. It is very often a series or progressive set of choices and tests, getting closer to the real test.

What is honor?

Honor is a reputation of good name. It is showing merited respect or recognition. Keeping one's word.

In today's reading, Bilbo forces Gollum to keep his word. Bilbo won the riddle contest and Gollum was to show him out of the cave. After much convincing Bilbo makes Gollum keep his promise.

What does the idiom, “Out of the frying pan and into the fire”, mean?

To go *out of the frying pan and into the fire* is to get **out of** one difficult situation only to end up in another. Example: "I worked too hard on that last project. But on this new project I am working even harder!" Reply: "**Out of the frying pan and into the fire.**"

"**The frying pan**" is a very hot place to be because it is over "**the fire**". In a difficult situation, the first thing we want to do is get **out** of that situation. Example: "They think they work hard now. Wait and see how much harder they have to work after they graduate." Reply: "**Out of the frying pan and into the fire.**"

Where do you go to find help?

It is important to know what your resources are. In every situation there are people and places that you can use to help support you. Often we are embarrassed or feel threatened if we ask for help. However, if we understand that others are there to support us and help us...then we can learn from our situation to help others.

In every community there are resources to help us in almost every situation. The counseling center at your school, local library, police and fire departments, teachers, coaches, parents, hospitals, and support groups can either help us in our present situation or help us find the resources we need.

In today's reading, Bilbo is reunited with the dwarves only to find them in another life-threatening situation. Gandalf uses his network of friends and asks for help from a special group of creatures. The group is taken to safety, fed, and given shelter for the night.

What do you have to do to be a good host and a good guest?

A good host and guests each have specific but equally important roles at a gathering. A good host will:

- Set the mood and atmosphere
- Dress appropriately
- Welcome your guests and make introductions
- Make sure everyone is served
- Make introductions. Introduce people who may not know each other and tell something about them when you make your introduction. This will help them mingle and find common interests
- Have fun and be gracious

A good guest will follow the following rules to ensure they get a return invitation:

- R.S.V.P as soon as possible
- Ask your hostess what you can contribute, if anything
- Will offer to help dress up the table
- Assist with the Setup
- Be on time
- Help clear the table

- Offer to help with kitchen cleanup
- Chat with other guests
- Will not be controversial

In today's reading, the troupe becomes acquainted with the eagles who help save them. The eagles are fantastic hosts and although Bilbo is tired and frustrated with his travels he is a gracious guest.

Trust is defined as the reliance on character, ability, strength, or truth of someone or something. One in which confidence is placed. In order to be trusted by others you must do things that are trustworthy to earn that trust from others.

How do you stay focused on a goal?

A goal is an object of effort or ambition; destination. In order to stay focused on a goal you must first decide your set of plans, and then keep the process and focus by reviewing and updating your to-do list on a daily basis. Then review the longer-term plans, and modify them to reflect priorities and your experiences.

What is character? How do you make changes to your character?

Character can be defined as the combination of qualities or features that distinguishes one person, group, or thing from another. Character is a distinguishing feature or attribute, as of an individual, group, or category. It can be a moral or ethical strength.

In order to make changes to your character you must first start changing your habits. We often know what we need to change in order to become better humans but we sometimes lack the understanding of HOW to change.

It is important to make changes gradually. Choose one aspect of your character to change at a time and set small obtainable goals. This will allow you to succeed at changing a bad habit.

Set a time limit to work on your goal. Most goals cannot go on forever. Setting a time limit will keep you focused and help you measure success. This will help you change your actions and start forming new habits. (Habits normally take 6 weeks to form).

Stay motivated by surrounding yourself with like-minded positive people who will push you and help support you in your changes?

In today's reading, Bilbo and the troupe continue to travel down river. Bilbo is anxious to get to dry land but realizes his circumstances are better than the others. While they are docked he runs to get food for himself. It is on this short trip he realizes how much he has grown and changed while on his journey.

What is a Thrush?

Songbirds characteristically having brownish upper plumage with a spotted breast. One of the most common woodland birds of the East, the Wood Thrush is best known for its hauntingly beautiful song. A large and heavily spotted Thrush, it is a bird of the interior forest, seldom seen outside the deep woods.

Change requires effort:

Change is possible. Change requires three things; a vision, a plan, and effort. It requires changing bad habits to good habits. It requires effort even when we don't feel like working. It requires one step at a time. The change theme occurs in this novel especially with Bilbo. He has changed as a Hobbit from the beginning of the novel until now becoming more independent and more of a leader. In many instances Bilbo did not want to work towards change but he did because it was for the greater good.

In today's reading, Bilbo is charged with entering the cave. He and the troupe are getting more and more frustrated that they can't enter the cave. As he is sitting there pondering his problem he is visited by a Thrush. At that point he remembers that Elrond told them many months ago and was able to get the door open.

How do dragons affect us?

The world is full of stories about brave heroes, magical events and fantastic beings. For thousands of years, humans everywhere—sometimes inspired by living animals or even fossils—have brought mythic creatures to life in stories, songs and works of art. Today these creatures, from the powerful dragon to the soaring phoenix, continue to thrill, terrify, entertain and inspire us. We seem to catch glimpses of these creatures all around us: hiding beneath the ocean waves, running silently through the forest and soaring among the clouds. Some symbolize danger. Others, we think, can bring us luck or joy. Together mythic creatures give shape to humankind's greatest hopes, fears and most passionate dreams. What is leadership?

Leadership can be summarized in the poem, "A Wish for Leaders" anonymous.

I sincerely wish you will have the experience of thinking up a new idea, planning it, organizing it, and following it to completion and having it be magnificently successful. I also hope you'll go through the same process and have something "bomb out."

I wish you could know how it feels "to run" with all your heart and lose horribly.

I wish that you could achieve some great good for mankind, but have nobody know about it except you.

I wish you could find something so worthwhile that you deem it worthy of investing your life.

I hope you become frustrated and challenged enough to begin to push back the very barriers of your own personal limitations.

I hope you make a stupid, unethical mistake and get caught red-handed and are big enough to say those magic words "I was wrong."

I hope you give so much of yourself that some days you wonder if it is worth it all.

I wish for you a magnificent obsession that will give you a reason for living and purpose and direction in life.

“After a while, a twinkling gleam showed them returning, Oin with a pine-torch alight in his hand, and Gloin with a bundle of others under his arm. Quickly Bilbo trotted to the door and took the torch; but he could not persuade the dwarves to light the others or to come and join him yet. As Thorin carefully explained, Mr. Baggins was still officially their expert burglar and investigator. If he liked to risk a light, that was his affair. They would wait in the tunnel for his report. So they sat near the door and watched” (p. 236).

Bilbo is definitely taking over as the leader. He also has some sort of plan for the Arkenstone. While Bilbo is likely making a mental note of what to take with him and what to do with the stone, if he had a few more things to remember, he might write himself a memo.

Pretend you are Bilbo. Write a journal entry for today listing three things you need to do tomorrow as a leader. You may wish to research different inspiring leaders and historical figures to gain knowledge of the qualities that make a successful leader. What does it mean to sacrifice something? What is peace and greed?

Sacrifice means to forfeit something highly valued for the sake of one considered to have a greater value or claim. In order to maintain peace, the dwarves would have to be absent from war and other hostilities. They would have to stay free from quarrels and disagreements. Greed is an excessive desire to acquire or possess more than what one needs or deserves.

In today's reading the dwarves visit the dragon's lair. They are astonished by the treasures he has. It is their first instinct to take whatever they can and travel with it.

- The Master calls on the Elves for help.
- The townspeople, realizing that their town has been lost, want to blame Thorin and the troupe for waking Smaug and want to hold them accountable for destroying their town.
- The master alerts the Elves and men that Smaug has been killed. They form an army and want to go to the mountain and retrieve the treasure. They will use it to rebuild their town and make themselves rich.
- Bard continues to lead the villagers and rebuild the town.
- The Thrush visits the troupe again, trying to tell them something. He goes to find a raven that can help translate.
- The raven is the grandson of a friend of Thorin's family. He tells them what is happening in Laketown.

What is the ordeal in the Heroic Journey?

An ordeal is an extreme trial or experience. In the heroic journey, the ordeal comes and you must summon everything you have in yourself to get through it.

This is what makes a hero a hero...they are the ones running into the burning building, or into battle, or slaying a dragon when everyone else is running the other direction.

In today's reading, the dwarves return to the cavern and prepare to defend it against battle. Bard and the men come to negotiate a deal for killing Smaug and for having their town destroyed. Thorin is becoming more greedy. Bilbo realizes there is a peaceful way to settle the matter and to save Thorin's pride. He sneaks out to speak with Bard. Upon his return he is met by Gandalf who is overly impressed by his leadership, negotiation, and integrity.

What does it mean to “burn a bridge”?

“Burning a bridge” is a figure of speech (idiom) that means you are acting unpleasantly in a situation you are leaving, ensuring you will never be welcome to return. An example: *If you get mad and quit your job, you’ll be burning your bridges behind you. No sense burning your bridges. Be polite and leave quietly.*

In today’s reading, Bard meets with Thorin and he brings the Arkenstone. Thorin is furious that Bard has it and demands to know how he got it. Bilbo admits to giving it to him as part of his share of the treasure and tells Thorin that he wants it used to end the conflict peacefully. Thorin was furious at Bilbo and sends him away. In this situation Bilbo “burned his bridge” with Thorin, severing the relationship so he cannot go back.

- How does Bilbo’s friends and enemies compare to the world during this time period?
- Is it significant the author chose to write a fantasy book during this time period? How is fantasy used to help people cope?

Historical Context

Pre-World War II England

When *The Hobbit* was published in 1937, Europe was in turmoil. The German dictator Adolf Hitler made no secret of his plan to expand German territory and rid his country of certain minorities, in particular the Jewish people. Many English politicians, including Winston Churchill, recognized the potential danger of Hitler's regime. However, British Prime Minister Neville Chamberlain sought to avoid conflict with Hitler. In March 1938, Hitler's forces annexed Austria and created a crisis throughout Europe. Chamberlain's controversial response was a policy of "appeasement," which allowed Hitler certain territories like Austria. He signed the Munich Pact with Hitler after the Austrian annexation to avoid war and proclaimed, "I believe it is peace in our time." A month later, Germany occupied the Czech Sudetenland. Yet when Germany invaded Poland on September 1, 1939, Great Britain and France declared war on Germany two days later. Chamberlain was forced to resign in May 1940; Churchill took over and led the country through the difficult years of World War II.

With the start of World War II, constant air raids and threats of invasion from the European continent endangered the English. Meanwhile, English casualties mounted and the German forces (as well as Benito Mussolini's Italian army) gained much ground early in the war. Tolkien believed that fantasy literature comforted people in such anxious and difficult times, and certainly *The Hobbit* serves as an excellent example of escapist literature.

Oxford University and the Inklings

Oxford University is the oldest English-speaking University in the world. Since 1096 teaching has existed at Oxford in some form. The university is comprised of thirty-nine independent, self-governing colleges, including Exeter College, which Tolkien entered in 1911.

At Oxford, Tolkien studied the classics, including Greek and Roman languages, literature, art, history, and philosophy, as well as modern languages, literature, and philosophy. He was awarded a degree with first-class honors in English Language and Literature just before he left for France to fight in World War I.

After the war Tolkien returned to Oxford to work as a teacher and tutor for the English School. Over the next several years, he established a reputation as a brilliant philologist and linguist. From the mid-1930s until 1962, Tolkien was part of an informal literary club at Oxford known as the Inklings. The group included several famous English writers, poets, essayists, and critics of the time, including Tolkien's close friend C. S. Lewis, as well as Owen Barfield, Hugo Dyson, and Charles Williams.

The Inklings would read and discuss their writings with each other. Many of the members encouraged Tolkien to publish *The Hobbit*. Tolkien also read most of *The Lord of the Rings* to the group years before it was published. The Inklings dissolved when Lewis became ill in 1962 and died the following year.

Compare & Contrast

- Late 1930s:** Hitler occupies Austria and the Czech Sudetenland in 1938. British Prime Minister Neville Chamberlain adopts his controversial "appeasement" policy in an effort to mollify Hitler. The strategy is doomed when Hitler's aggression leads Germany to invade Poland on September 1, 1939. Two days later Great Britain and France declare war on Germany.

Today: The European Economic Community (EEC) is an economic powerhouse. A new European currency, the Euro, is issued. However, political events threaten economic progress for Europe as the conflict in Yugoslavia wreaks havoc in the Balkans. Also, Serbian aggression in Kosovo leads to the NATO bombing of Belgrade.
- Late 1930s:** In South Africa, Tolkien's birthplace, the Native Laws Amendment Act is passed. This law extends the long-established system of pass laws, which require blacks to carry special papers to stay in the cities. This law is only one in a series over many years establishing the apartheid (apartness) system in South Africa.

Today: Nelson Mandela retired as President of South Africa and passed away in 2013. Imprisoned in 1961 for protesting the apartheid system, he was freed in 1988 and elected president of South Africa. Apartheid has been dismantled for many years, yet the effects of the policy are still evident throughout South African society.
- Late 1930s:** With the advent of World War II, military production provides a spark for American manufacturing and industrial production. As a result, the United States begins to reverse the economic collapse of the Great Depression.

Today: The economies of the United States and Europe are strong. Due to the government's efforts to adopt a more democratic system, the Russian economy experiences a difficult transition. Japan suffers from a recession because of various factors, including a banking crisis.

The Hobbit, Community Connection

The overall theme of the heroic journey is working together to accomplish a common quest or goal. As a class discuss social issues that affect them and their communities. Have students brainstorm as many idea's as possible. Some examples are: a community may need a crosswalk or new signal, lights that are broken at their park, no safe place to recreate, etc. Choose one idea on the list the entire class can work together to fix.

Our issue is:

Discuss and brainstorm possible solutions:

Create an action plan to determine what solutions are the most practical for you and your group:

Assign tasks and deadlines to your group and start creating your project:

Evaluate your action and the steps you took. What could you have done better or differently?

Modifications:

This is a basic outline for a project. School and site settings vary so modify the project to meet the needs of your students. If you are in a court school setting students can write letters as their form of action. Community school students may choose to visit their local community and plan a volunteer project. Independent Study Students may choose to create one project and work together on it.
