What is the History of Michigan and the Lives of Black People in the State?

The name "Michigan" is attributed to the Indian word "Ojibwa" which means "large lake." Four of the largest lakes in the United States, including Lake Superior, border Michigan. In 1837, Michigan became the nation's 26th state. As it gained its statehood, Michigan enforced some laws concerning African Americans less strictly than its neighbors. For example, A Wayne County court document included the statement: "We

do not believe that a human being, who is a freeman, although possessing a black or yellow complexion, or being one or more shades darker than is common to white freemen, should be deprived of those rights and privileges, which are the common heritage of this happy and republican country. Attempts have been made to carry into execution said law. But owing to public opinion to the contrary, on account of its unconstitutionality, it cannot be effected." The pro-civil rights attitudes of the early settlers welcomed freed and fugitive slaves into the state. However, disputes about the civil rights of African American happened in Michigan just as in other states. For example, in 1867, when the legislature in Michigan prohibited segregation in public schools, the city of Detroit did not enforce the law in its schools. At the time the protagonist of the book *Song of Solomon*, Macon Dead III, was born in 1931, African American people were segregated in Detroit – they lived in separate neighborhoods, held separate private business practices, and their children attended separate schools.

Timeline Agree on the facts in today's reading and list the 3–5 most important events on the timeline.

Students might mention:

- As people gather to watch Mr. Smith's attempt to fly, Ruth is going into labor.
- Macon Dead III gets his nickname "Milkman" when he is four years old.
- Macon Dead II does not show forgiveness or leniency towards his tenants and family.

Map Add to ongoing class activities like a KWL chart or map.

In this unit, you will learn about African American history from the Antebellum Period to the Civil Rights Movement. For the Map activity in this unit, you will need five large sheets of paper, preferably 11 x 17 inches. Write and illustrate on this paper in landscape format. Add your name and a title: "African American History Chart." Dedicate each sheet to one of the following historical topics:

- The Civil War and Reconstruction, 1861–1877
- Industrialization and Urbanization, 1880–1929
- The Great Depression, 1929–1939
- World War II, 1939–1945
- African-American Civil Rights Movement, 1954–1968

Keep the five posters in your folder and add to it throughout the unit.

Chapter 1 begins in 1931, the year Macon Dead III was born. Look up and write three facts about the 1930s and three facts about the lives of African American people at that time. Add these facts under the section "The Great Depression, 1929–1939." Add illustrations and color to complete your work.

Answer the key questions. Use evidence from the text.

1. How has Ruth lived her life differently than other African Americans in her town?
2. Why does Macon Dead II refuse to stay in touch with his sister, Pilate?

Analyze the key paragraph.

Key Paragraph, p. 10

"Solid, rumbling, likely to erupt without prior notice, Macon kept each member of his family awkward with fear. His hatred of his wife glittered and sparked in every word he spoke to her. The disappointment he felt in his daughters sifted down on them like ash, dulling their buttery complexions and choking the lift out of what should have been girlish voices."

EXTEND

Write a short product based on today's prompt to connect to the unit theme.

In this unit, you will write an analytical essay about the impact of key events in American history on the lives of individuals. Today, you have read about two different ways men have built their identity and place in society. Macon Dead I was a free man who owned a small farm. Ruth Foster's father was a doctor and a respected man in his community. Ruth Foster's husband was a business man who owned multiple properties in town. For these men, having opportunities to grow were critical to their identity and self-esteem. Write an introductory paragraph about the importance of having opportunities in life to pursue dreams and accomplish goals.

How Did Former Slaves Get Their Names?

Today, you will learn how Macon Dead, Milkman's grandfather, received his unusual name after the emancipation. Slaves who were brought to America were often stripped of their names as a way of taking their identity away from them. Some slave owners assigned new names to the while others have left their slaves nameless. Slaves did not have legal surnames, although they sometimes adopted the owner's family name. Slave

owners and the law identified slaves by their first names only. After the Civil War, [the Bureau of Refugees, Freedmen, and Abandoned Lands](#) (the Freedmen's Bureau) provided services to the freed slaves. These services included food and clothing, health care and temporary camps, reunification of families, education, employment, and legal representation. To register for services, former slaves had the option of selecting new names for themselves or to record the names they were used to. Some, for example, chose "Freeman" as their last name. However, before they were freed, slaves were prohibited to read and write by law. Therefore, when the time came to register in the Freedman's Bureau, they could not fill out the forms or check for the accuracy of the forms completed by others.

What Did African American Soldiers Experience During World War II?

Over 2.5 million African-American men registered for the draft during World War II. They served in the Army, Army Air Forces, Navy, Marine Corps, and Coast Guard. In most cases, African American soldiers were placed in separate units. The 332nd Fighter Group included predominantly African-American soldiers. After initial reluctance of the air force to train African American pilots and to deploy them overseas, the pilots

received their initial assignments. Records of Congressional hearings showed the intent to disband the squadron due to failure to show aggressiveness and daring. However, further investigation reported that the pilots performed as well as other units in their area. The pilots received a Distinguished Unit Citation for their performance in combat in the Mediterranean region.

The Lynching of Emmett Till

Between the late 19th century and the middle of the 20th century, thousands of lynching incidents were carried out against African American men. The highest number of recorded lynching was in Mississippi. Typically, lynching involves several dozen people. This story, however, involves two men who took the law into their own hands. One of most publicized cases was the murder of 14-year-old Emmett Till in 1955. Till came from Chicago to visit family in Mississippi. He was shopping at a store owned by Roy and Carolyn Bryant. Till allegedly grabbed the hand of Mrs. Bryant and let out a “wolf whistle” as Mrs. Bryant exited the store to get a gun from her car. Mrs. Bryant told about this incident to her husband and half-brother. They abducted Till. The two men then beat Till nearly to death and shot him in the head. They tied a large metal fan to his neck with barbed wire, and threw the boy into the Tallahatchie River. His body was soon recovered. In a court trial, Roy Bryant and his half-brother J.W. Milam were accused of the murder. An all-white, all male jury acquitted both of them. No one else was ever indicted or prosecuted for involvement in the kidnapping or murder.

For example, Ida B. Wells-Barnett, an African-American teacher and journalist, public advocacy was influenced by the 1892 Memphis lynching of three black businessmen whose success had outraged their white competitors. How Did Law Enforcement Treat African American People?

Based on the national registry of exonerations, African American people are about seven times more likely to be falsely convicted of murder than white people.¹ African Americans are also likely to be investigated, arrested, and spend more time in prison before they are released compared to White people. The reasons for the false convictions include racial bias, errors in eyewitness identification of the suspects, and lack of financial means to obtain legal representation selected by the defendants.

Case Study for Discussion: The Courage of a 12-Year-Old

In 1960, a Supreme Court held that, under Federal law, integrated travel on interstate buses and trains is a legal right of all people regardless of their race. In 1961, Freedom Riders (7 Black, 6 white) boarded a bus in Washington DC and began a road trip to Louisiana through Virginia, North Carolina, South Carolina, Georgia, Alabama, and Mississippi. Most of the people on the bus were in their 40s and 50s, and two passengers were young students. When the bus reached Alabama, a mob of more than one-hundred men attacked the bus. They smashed the windows, slashed the tires, and set the bus on fire. Then, they held the bus doors in an attempt to prevent the passengers from getting out of the burning bus. With the help of a police officer, the passenger exited the bus just before it exploded. Upon exiting the bus, the riders were beaten with baseball bats by the mob. A 12-year-old white girl brought water to the bleeding riders who were still choking on the smoke from the burning bus. She did so despite the warnings and taunts of the mob. She and her family were later ostracized by the town people and were forced to move elsewhere.

Discussion Questions

1. How does the involvement of the white and black people on the bus in the Civil Rights Movement compare to the attitudes of Milkman and Guitar?
2. What would you do if you lived in that town at that time? Why?

What is The Great Migration?

Between 1910 and 1970, an estimated six million African American people left the South to other parts of the country. Some sought work in large cities such as Detroit, Chicago, and New York, while others found seasonal farm work in rural parts of the country. African American left the South because of lack of jobs, unequal access to public services including education and public transportation, as well as discrimination

and violence. Other factors that influenced the Great Migration were national policies and events. For example, following World War I as well as the United States attempted to halt immigration in the 1920s, the demand for factory and farm workers increased. The wages of African American laborers were approximately one-half to two-third of white people's wages. Despite this lack of equality, it was an opportunity for African Americans, particularly those from the South, to build a better life. African American migrants earned as much as African American people who were born and raised in the North.

Key Paragraph, p. 138

“You’re botherin me!” Hagar was shouting and digging her fingers in her hair. It was an ordinary gesture of frustration, but its awkwardness made Ruth know that there was something truly askew in this girl. That here was the wilderness of Southside. Not the poverty or dirt or noise, not just extreme unregulated passion where even love found its way with an ice pick, but the absence of control. Here one lived knowing that at any time, anybody might do anything. Not wilderness where there was system, or the logic of lions, trees, toads, and birds, but wild wilderness where there was none.”

What Was the Difference Between Martin Luther King Jr. and Malcolm X's Approaches?

Two civil rights leaders with contrasting viewpoints – Martin Luther King Jr. and Malcolm X – disagreed on the methods and goals of the movement. Malcolm X preached for seeing White people as the enemy. In his Message to the Grassroots speech in November 1963, in Detroit, he said: “We have a common enemy. We have this in

common: We have a common oppressor, a common exploiter, and a common discriminator. But once we all realize that we have this common enemy, then we unite on the basis of what we have in common. And what we have foremost in common is that enemy -- the white man. He's an enemy to all of us. I know some of you all think that some of them aren't enemies. Time will tell."

In contrast, Rev. Martin Luther King Jr. believed that there are many white people in America who advocate for equal rights for African Americans, and their moral voice will prevail. In 1963, at the "March on Washington," he said: "But we refuse to believe that the bank of justice is bankrupt. We refuse to believe that there are insufficient funds in the great vaults of opportunity of this nation. So we've come to cash this check, a check that will give us upon demand the richness of freedom and the security of justice." As you read Chapter 6, reflect: Whose philosophy does Guitar Bains convey?

When Was Gold Ownership Illegal in the US?

President Roosevelt's Executive Order 6102, signed in 1933, made gold ownership illegal and punishable by fine and up to ten years in prison. This Order was part of the President's Gold Program which intended to retain the value of the dollar. Americans were required to surrender the gold in their possession to the government.

in return to compensation determined by the government. The prohibition against owning gold wasn't uplifted until 1974.

The Bomb that Killed Four African American Girls

On September 15, 1963, during prayers on a Sunday morning, a bomb exploded under the steps of the 16th Street Baptist Church in Birmingham, Alabama. Four girls were killed and many other people were injured. The church, which served the African American community, was headquarters for civil rights movement meetings. Four girls died in the explosion. Prior to the bombing, civil rights leaders reached an agreement with local authorities to begin the integration of schools. Rev. Martin Luther King Jr. responded to the event with a telegram addressed to Alabama Governor George Wallace, saying: "The blood of our little children is on your hands." The public funeral for three of the girls attracted more than 8,000 people. However, Alabama state officials and Birmingham City officials did not attend the funeral. The four Ku Klux Klan members responsible for the murders were not charged until 45 years later. Three men were eventually convicted. The Ku Klux Klan members hoped to impede the progress of the civil rights movement. Instead, the bombing fueled great public support of the movement.

What Gender Disparities Existed in the 1960s?

Women in the 1960s had less employment opportunities, advancement in the workplace, and salaries than men. Generally, women's employment was discouraged and the most typical jobs for women were as teachers, nurses, and secretaries. African American women had the most difficulty finding employment. Although African

American women made significant contributions to the civil rights movement and the fight for equal civil rights, they received little recognition.

How Did the Public and the Police Treat African American Soldiers During and After World War I?

In Chapter 10, Reverend Cooper tells the story of attempting to participate in the post-World War I Armistice Day Parade in Philadelphia. The white people at the parade violently rejected the African American marchers. Instead of protecting the victims, the police trampled the Reverend and his friends with their horses. The Reverend has

carried a large scar on his neck since that day. The patriotic feelings and hopes of the marchers exemplify the treatment of African American soldiers and veterans in World War I.

The Great Migration to northern states (partly driven by wartime demand for workforce), the framing of World War I as a fight for democracy and human rights, and opportunities to enlist in the army raised the hopes of many African American people to find a better life with greater social and economic mobility. However, many of them saw the opposite. In urban areas in the north, new arrivals of African Americans found residence in overcrowded neighborhoods, stigmatized as ghetto. In the U.S. Army, African American soldiers faced segregation and discrimination. In some instances, it has led to violent clashes.

An example of the tensions resulting from this gap is the Houston Riots of 1917. In the summer of 1917, an all-black 3rd Battalion, 24th Infantry was posted in Houston, TX to guard the construction of a new training camp – Camp Logan. Some of the soldiers in the 24th Infantry came from states that did not have Jim Crow laws (e.g., Ohio and New Mexico) and were willing to tolerate the abuse inflicted by construction workers in the camp and the local police when they visited Houston. Being U.S. army soldiers, they expect to be treated as equals. On August 23rd, 2017, Corporal Charles Baltimore had been arrested and beaten by the police because he inquired about the arrest and beating of another African American soldier. Back at Camp Logan, the soldiers heard rumors about a white mob that was about to arrive at the camp. Some of the soldiers fled the camp, but others marched towards the jail. Having their rifles confiscated earlier, they stole their weapons. This event triggered an armed riot of members of the Infantry. After the riots, 19 soldiers were hung, and 63 others were given life sentences.

Where Did the Freed Slaves Go After the Emancipation?

At the end of the Civil War, the freed slaves needed to find housing and employment. They wanted separate residential units as opposed to the shared quarters where slaves were forced to live. Because it was illegal for slaves to have education, absent the ability to read and write, many freed slaves sought work in agriculture. Some made tenancy arrangements under rental contracts with white land owners. Others became

sharecroppers, which means they worked a farm or section of land in return for a share of the crop rather than wages. In both cases, the freed slaves were vulnerable to economic exploitation because of discrimination, limited employment options, their inability to negotiate, read, or sign contracts, and lack of protection by law enforcement. Jim Crow laws in the South enables white landlords to demand more income from their tenants and sharecroppers with less compensation. Consequently, African American farmers lived in a constant state of debt and poverty and only a fraction of the next generation of African American farmers in the early 1900s owned farmland.

2. What did Milkman believe he deserved and didn't deserve in life?

Analyze the key paragraph.

Key Paragraph, p. 266

"He was telling them that they weren't men, that they relied on women and children for their food. And that the lint and tobacco in their pants pockets where dollar bills should have been was the measure. That thin shoes and suits with vests and smooth smooth hands were the measure. That eyes that had seen big cities and the inside of airplanes were the measure."

In this unit, you will write an analytical essay about the impact of key events in American history on the lives of individuals. Today you have read about the contrast between Milkman's expectations for a warm southern hospitality and the hostility of the young men who resented his clothes, manners, and statements. Write one or two paragraphs about the effects of being caught in a vicious cycle of poverty – a cycle caused by a lack of employment and education opportunities, discrimination and low wages, and lack of access to food, health care and social services – on people's behavior and attitudes.

How Did Freed Slaves and Their Descendants Kept Track of Relatives?

Being able to know about their past, family tree, and family history, is one of the many things stolen from slaves and their descendants. Commonly, slave owners separated husbands and wives, as well as children and parents, selling them to work in plantations in remote areas and other states. Some slaves ran away to find their loved ones, but many lost connection with their families. After the emancipation, thousands of freed

slaves posted “information wanted” ads in newspapers. Some of them wrote letters with the help of church ministers and government agencies. One of the stories featured on the project’s website [Last Seen: Finding Family after Slavery](#), features the story of Mrs. Anna Mollie Wright and her daughter, Mrs. Anna Freedman. The mother and the daughter were sold to different slave owners in Dover, Tennessee in 1863. After 29 years, an African American man who came from West Virginia, noted to the mother that a young woman from his town has been writing letters to Dover, Tennessee, looking for information about her mother. The mother contacted the minister in West Virginia and eventually was reunited with her daughter, whom she has not seen since she was a little girl.

How Do People Respond to Romantic Breakup?

Generally, interpersonal relationships have a key role in people's physical and mental well-being. Some people react more strongly than others to social exclusion and romantic breakup. Research suggests that people used to close relationships and emotional dependence on others feel greater pain as a result of separation than people used to living alone. People who have been alone for a substantial length of time, tend

to experience emotional numbness rather than intense emotions and distress. One's ability to adapt to change affects their response to separation and breakup. The ability to adapt sometimes triggers adaptive responses, such as seeking new relationships or new personal growth opportunities. Those who have not practiced the skills of adapting to change may be more vulnerable and respond with depression, anxiety, withdrawal from social contact, and self-neglect.

What is the Origin of the Flying Slaves Folktales?

In 1803, members of the Igbo tribe who were kidnapped and brought to Georgia as slaves rose in a memorable rebellion. While on the slave ship, *The York*, which was to deliver them from Georgia to the plantations on the St. Simons Island, 75 members of the Igbo tribe took over the ship and drowned their captors. According to historical records, the Igbo tribe members committed mass suicide when they arrived to shore, by

marching to the water and choosing to drown in the ocean over being kept as slaves. However, because most of the bodies were never recovered, storytellers provided other accounts of the story. According to one version, the member of the Igbo tribe gained magical powers that lifted them to the air and brought them back to Africa. These tales of courage and hope were preserved and retold through oral traditions.

Why are Names Important?

During the Civil Rights Movement era, many African Americans chose names that expressed their identity, aspirations, and desire to counteract past and present racial oppression. In 1843, a runaway slave, Isabella Baumfree, changed her name to Sojourner Truth to reflect her calling to travel and tell the truth about slavery. In 1952, Malcolm Little changed his last name, originally given by his ancestors' slave owner, to

X – indicating lack of knowledge of the original names of his ancestors. Names reflected the right of African Americans to reclaim recognition of their unique identity, personal choices, and ancestry.

Final Writing Product

Your final writing product is an analytical essay. Begin your essay with a statement about the effects of key events in American history on the lives of individuals. In the introduction paragraph, clarify your argument and introduce the reader to how you will analyze this relationship. In the following paragraphs, provide an analysis of your argument. Use the paragraphs you have written over the last weeks to provide examples. Reorder, edit and add connecting sentences as needed. You may choose to replace paragraphs with new ones that better support your argument.

The essay should be concise – avoid repetition and redundancy in statements. Use the following checklist to evaluate your work:

- The essay begins with a clear argument.
- Each paragraph includes a topic sentence that directly supports the arguments in the introduction paragraph.
- The essay includes quotes from the book.
- The essay includes a rich vocabulary and complex sentence structures.
- The body paragraphs lead to the conclusion paragraph logically.
